Python
.NET

Databases
PostgreSQL
MySQL
MongoDB

Languages
Portuguese (Native)
English (Intermediate)

CERTIFICATES

React - The Complete Guide 2023 (incl. React Router & Redux)

- Udemy | 74.5 hours | Dec 2023
- Covered: React fundamentals, advanced hooks, Redux, Context API, Router, Next.js, TypeScript, deployment

EXPERIENCE

Full Stack Developer

@Accenture — april 2026 – present

- Joined a large-scale government platform modernization project as a System Developer Senior Analyst, contributing on the development across a distributed microservices architecture.
- Integrated AI into the development workflow using Claude Code, leveraging specialized prompt agents across the full SDLC.

Next.JS | .NET | Claude

Full Stack Developer

@Accenture — march 2024 – march 2026

- Full-stack developer, primarily focusing on frontend development.
- Focus on building and integrating dynamic and responsive web applications.

Angular | JavaScript | Copilot

SAP ABAP Developer

@Accenture — july 2021 – march 2024

- Engineered custom backend logic for enterprise resource planning solutions within the SAP environment on a large project.
- Enhanced understanding of large-scale systems and end-user needs.

EDUCATION

Integrated Master's in Informatics Engineering

University of Minho — Braga, Portugal — 2015 – 2021

- Master Degree in Informatics Engineering
- Specialization: Application Engineering & Language and Knowledge Processing
- Application Architectures, Interactive Systems, Information Processing and Knowledge Representations, Natural Language Processing, Computer Networks, Algorithms and Complexity, Databases, Operating Systems
- GPA: 15.4/20 | Thesis: 18/20

PERSONAL PROJECTS

Personal Finances App

- Finance Tracker web app to manage personal finances built with Next.js
- Uses Google Drive API for authentication and data storage
- Deployed with AWS Amplify, leverages auto-deployment from GitHub
- Provides a structured approach to manage personal finances, logging transactions, analyzing spending patterns, and storing financial data securely in the Google drive

Next.JS | Typescript | Tailwind

Home Assistant

- Started the development of a voice-controlled home assistant to automate household tasks
- Currently exploring Ollama for natural language understanding, voice command interpretation, and intelligent tool selection and execution

React | JavaScript
